INDEX OF AUTHORS

Abbatiello, Alfonso A., 923
Albrecht, Gisela, 64
American Thoracic Society, 124, 135, 298, 299, 457, 597, 604, 771, 943
Andrews, Charles E., 409, 697
Armstrong, Allan L., 283
Artman, M., 575

Baer, Harold, 41
Bakke, John L., 835
Baltazaar, Aida, 64
Barbara, Carmel, 20
Barber, Jesse B., 561
Baum, Gerald L., 528
Bekierkunst, A., 575
Béland, Jean, 707
Blechmann, M., 448
Boucot, Katharine R., 519
Bower, George, 440
Bradley, S. Gaylen, 764
Brody, Alfred W., 214, 270
Brown, Arnold L., Jr., 485
Brown, Robert, 835
Bruckner, P., 830
Brünner, S., 250
Buckingham, William B., 64
Burrell, Robert G., 697

Cacciatore, Robert, 283
Campbell, M. J., 186
Candau, G. M., 589
Carilli, Albert D., 680
Carnahan, William J., 519
Carter, Curtis H., 909
Chaparas, Sotiros D., 41
Chapman, John S., 197
Chaves, Aaron D., 350
Chu, B. Y., 917
Clayton, Yvonne M., 186
Clements, J, A., 372
Clifford, Mary K., 651
Cohen, Archibald C., 923
Colantuono-Blechmann, P., 448
Conn, H. C., 937
Conn, Harold O., 12
Connolly, John J., Jr., 214, 270
Cooper, David A., 100, 519
Cotes, J. E., 293
Cowdrey, C. Richard, 200, 206
Crawford-Gagliardi, Lorraine, 337
Crofton, J. W., 811
Cugell, David W., 64

Dalhamn, T., 870
Daniell, Duren, Jr., 687, 909
Darzins, E., 277
Dietz, Thomas, 579, 926
Doctor, Le Roy, 897
Dross, Ingeborg C., 923
Duke, John F., III, 687
Dunbar, Frank P., 280
Duncan, James T., 103
Dye, W. E., 284
Dyerly, Margaret D., 197

Eckmann, Bertram H., 175
Eidus, L., 289, 587
Ellison, Lois T., 687, 909
Ellison, Robert G., 687, 909
Emirgil, Cemil, 402

Fedorko, Joseph, 116
Felton, Frances G., 89
Filler, Juan, 801
Filley, Giles F., 360, 878
Finley, T. N., 372
Fischer, Vernon W., 533, 721
Flakas, E. D., 760
Frenkel, J. K., 835
Froman, Seymour, 236, 287, 581

Gardner, R. E., 372
Goldman, H. I., 73
Gordon, Gerald, 753
Greetham, Lynn, 337
Griffith, William R., 240

Hahne, Otto H., 566
Hamilton, E. J., 587
Han, F. C., 917
Hanson, John S., 95
Harden, K. Albert, 561
Henderson, James R., 680
Hill, Gilbert A., 926
Hinshaw, Charles T., Jr., 835
Hobby, Gladys L., 337
Hochstrasser, Donald, 416
Hoffman, Lee, 106
Howard, Dexter, 631
Hoyt, Anson, 111
Hsing, C. T., 917
Huppert, Milton, 175
Hyatt, R. E., 387

Israel, Harold L., 100
Ivaska, Theresa, 337

Jenkins, P. A., 842
Jenney, Florence S., 923
Johnson, Peggy M., 337

Kaplan, William, 651
Karlson, Alfred G., 485
Katz, Julius, 673
Katz, Sol, 116
Kaufmann, A. J., 284
Kho, William, 528
Kistin, A. D., 387
Kleinerman, Jerome, 200, 206
Kniker, William T., 29
Konst, H., 289
Kubica, G. P., 284
Kunofsky, Solomon, 673

LaBorde, James B., 29
Lampe, William T., 756
Lapin, Ausma, 337
Lapinski, E. M., 760
Lawless, John J., 409
Lenert, Tulita F., 337
Lerner, Sally, 416
Levin, A., 73
Levine, Harold, 64
Levy, Louis, 105
Liu, H. C., 917
Long, Keith R., 49
Longbottom, J. L., 842
Loudon, Robert G., 352
Löw, B., 429
Lowell, Anthony M., 165
Lowell, Francis C., 82
Lyons, Harold A., 379

McGrath, Margaret W., 859
Maier, Joyce, 337
Mahan, T. K., 387
Maldonado, Wilford E., 89
Malmberg, Rolf, 64
Mándi, László, 691
Manion, Robert E., 764
Mankiewicz, Edith, 707
Marcus, Stanley, 579, 926
Massaro, Donald, 116
Maxwell, Kameron W., 579, 926
Mizuguchi, Yasuo, 929
McLaughlin, Joseph S., 745
Merckx, John J., 485
Minsley, Nat M., 108
Mitchell, Roger S., 360, 878
Mizuno, Shoji, 933
Moore, Frederick J., 111
Moore, Victor A., Jr., 909
Mudd, J. Gerard, 255
Murohashi, Toyoho, 929
Murray, John F., 631

Nakano, Eizo, 933

O'Halloran, Patrick S., 214
O'Malley, Patricia, 337

Payne, Rufus F., 592
Pecora, Louis J., 528
Pepys, J., 842
Perkins, James E., 590
Pickett, M. J., 581
Pukite, A., 277

Ramirez-R., Jose, 745
Rayl, Donald F., 503
Revici, E., 448
Riberi, Angelo, 255
Richards, William D., 287
Rovsing, H., 250
Ruggiero, Joseph, 409
Russell, Ruth L., 287
Ruth, William, 835

Sampson, Calvin, 561
Scammon, Lois, 236, 287
Schaefer, Gerschen L., 175
Schweiger, O., 429
Schwertley, Frederick W., 214, 270
Shadomy, S., 581
Shephard, R. J., 859
Siebenmann, Charles O., 20
Silman, Nitza, 575
Simpson, David G., 165
Sing, L. K., 936
Singh, Balbir, 1
Smith, C. Edwin, 497
Smith, J. Chandler, 264
Smith, McKelden, 450
Snider, Gordon L., 897
Sobol, Bruce J., 402
Spjut, Harlan J., 503
Standefer, James E., 95
Steel, S. J., 736
Stein, Samuel C., 444
Stergus, Ingrid, 497
Stewart, Sheila M., 811
Sweet, Herbert C., 533, 721
Swenson, E. W., 372

Tabakin, Burton S., 95
Taleghani-Far, M., 561
Tan, Alfonse, 528
Taylor, B. C., 760
Terry, Luther L., 590
Thompson, Millie A., 111
Thompson, Y., 448
Thomson, M. L., 859
Thornton, J. A., 859
Thurlbeck, William M., 82

Ting, Er Yi, 55, 379
Tokunaga, Tohru, 929
Tomasovic, A. A., 592
Tomcsányi, A., 429
Tooley, W. H., 372
Top, F. H., 49
Treadwell, T. W., Jr., 435
Trembley, Carol, 337
Trivedi, G. K., 444
Tsukamura, Michio, 572, 933
Tsukamura, Sumio, 933
Tyler, Myra D., 435

United States Public Health Service Cooperative Investigation, 327

Vargha, G., 830
Veterans Administration Cooperative Study on Blastomycosis, 659
Veterans Administration Cooperative Study on Histoplasmosis. II., 641
Virágh, Zoltan, 691

Wallace, Janet P., 697
Wander, Harry J., 214
Webb, N. Conant, 878
Weiss, William, 519
Williams, M. H., Jr., 936
Willman, Vallee L., 255
Wilson, John L., 756
Wulf, H., 250
Wyatt, John P., 533, 721

Yoo, Ok Hi, 55

Ziporin, Z. Z., 936
Zoss, Albert R., 528
Zwi, S., 73

INDEX OF SUBJECTS

Adrenal-pituitary function in chronic pulmonary tuberculosis, 835
Aerosols, bacterial and viral, exposure of animals and volunteers to mobile laboratory for, 240
Agar diffusion, precipitation technique in detection of antibody against tubercle bacilli in tuberculin-positive cattle, 49
Alveolar proteinosis, pulmonary, segmental flooding in (case reports), 745
AMERICAN THORACIC SOCIETY
  Necrology, 457
  Notices, 135, 299, 457, 604, 771, 943
  Obituaries, 298
  Organization and Committee Structure, 1963–1964, 124
  Preliminary program, medical sessions, American Thoracic Society Annual Meeting, 597
Ammonia concentration in blood, effect of isoniazid on, 12
Amphotericin B in histoplasmosis, chronic, pulmonary, 641
Anemia, hemolytic, caused by PAS (case reports), 440
Antibody(ies)
  antimycobacterial, in serum of tuberculin-positive cattle, detection of, 49
  of lung in pulmonary disease, 697
  reagents for *Coccidioides immitis*, 651
Antigens, mycobacterial, separation by ion-exchange chromatography, 29
Aorta, origin of one pulmonary artery from (case reports), 255
Artery, pulmonary, origin of, from aorta (case reports), 255
Aspergillosis. *See* Mycoses
Atelectasis, pulmonary surface tension in, 372

Bacillus(i), acid-fast, electron-microscopy in infection with, 485
BCG
  culture filtrate, nondialyzable, chromatography of, 41
  and unclassified mycobacteria, infection with, in mice challenged with *M. tuberculosis* (Notes), 280
Berylliosis. *See* Pneumoconioses
Blastomycosis. *See* Mycoses
Blood ammonia concentration, effect of isoniazid on, 12
  correspondence on, 936, 937
BOOKS
  Annual Review of Microbiology, Volume 16. Edited by CHARLES E. CLIFTON, SIDNEY RAFFEL, and MORTIMER P. STARR, 594
Attitudes des Tuberculeux Pulmonaires devant Leur Traitment. Sanatorium Interdepartmental de Bergesserin, Saône-et-Loire, 940
Bilharziasis. Ciba Foundation Symposium. Edited by G. E. W. WOLSTENHOLME and MAEVE O'CONNOR, 595
Bronchial Asthma. Its Diagnosis and Treatment. By ALBERT ROWE and ALBERT ROWE, JR., 119
Bronchographie Clinique. By E. BERNARD and B. GAMAIN, 295
Broncho-Pneumopathies Professionelles. By C. GERNEZ-RIEUX *et al.*, 119
Cardiology. An Encyclopedia of the Cardiovascular system. Supplement 1. Edited by ALDO A. LUISADA, 594
Chronic Bronchitis—Prevention and Management. Symposium held at Manson House, London. CHEST AND HEART ASSOCIATION, 455
Current Therapy—1963. Latest Approved Methods of Treatment for the Practicing Physician. Edited by HAROLD F. CONN, 296
Design and Use of Respirators. Edited by C. N. DAVIES, 769
Differentialdiagnose Seltener Lungenerkrankungen im Röntgenbild. By KARL MUSSHOFF and JÜRGEN WEINRICH, 595
Diseases of Occupations. Third Edition. By DONALD HUNTER, 939
L'Exploration de la Fonction Respiratoire en Pratique Pneumologique. By DENISE BRILL and CLAIRE HATZFELD, 454
Fundamentals of Modern Allergy. Edited by SAMUEL J. PRIGAL, 296
Human Ecology and Susceptibility to the Chemical Environment. By THERON G. RANDOLPH, 941
Human Pulmonary Circulation. By PETER HARRIS and DONALD HEATH, 454
Integrity of the Body. By F. M. BURNET, 455
Internal Medicine in World War II. Vol. II. Infectious Diseases. Edited by COL. JOHN BOYD COATES, JR., 453
De Longvaten Architectoniek en Rol Bij de Longonplooing. By JOSEF LAUWERYNS, 122
Lungenemphysem und Bronchitis. Pathophysiologie, Klinik, Therapie. By H. H. MARX, 940
Medical Residents Manual. By FRANK B. FLOOD, RICHARD J. KENNEDY, and WILLIAM J. GRACE, 123

Books cont'd
Pharmacogenetics. Heredity and the Response to Drugs. by WERNER KALOW, 594
Physiological Measurements of Metabolic Functions in Man. By C. FRANK CONSALAZIO *et al.*, 121
Principles of Internal Medicine. Fourth edition. Edited by T. R. HARRISON *et al.*, 294
Progress in Medical Virology. Volume 4. Edited by E. BERGER and J. L. MELNICK, 767
Protein Metabolism. Influence of Growth Hormone, Anabolic Steroids, and Nutrition in Health and Disease. An International Symposium. Edited by F. GROSS, 120
Regulation of Human Respiration. Edited by D. J. C. CUNNINGHAM and B. B. LLOYD, 939
Surgery. By RICHARD WARREN *et al.*, 768
Thoracic Surgery. Volume I. Edited by FRANK B. BERRY, 769
Tuberculosis—Prevention and Control. THE CHEST AND HEART ASSOCIATION, 294
Les Tuberculostatiques. By M. BARIÉTY, H. BROCARD, and P. CHOUBRAC, 295
Tumors of the Chest. By THOMAS J. KINSELLA, 122
Bronchitis
chronic
bacterial species isolated from sputum of patients with (Notes), 116
reversible and nonfatal (case reports), 435
sputum culture in (Notes), 760
Bronchopulmonary disease
chronic, obstructive
clinical features of, 360
factors influencing prognosis, 878

Cancer of lung, natural history of, 519
Cattle, tuberculin-positive, detection of antimycobacterial antibodies in serum of, 49
Cavity
in Hodgkin's disease (case reports), 736
and obstructive ventilatory syndrome in tuberculosis, 830
Chemotherapy for Johne's bacillus (Notes), 289
Children, kerosene poisoning in, roentgenographic changes in lungs due to, 250
Chinese, sarcoidosis in (case reports), 917
Chloroquine in sarcoidosis (Notes), 105
Cigarette smoking. *See* Smoking
Cine-angiography. *See* Roentgenography
Cinephotomicrography of serial sections, in lung pathology, 200
Coal miners in southern West Virginia, respiratory disease in, 387
Coccidioides immitis. *See* Fungus
Coccidioidomycosis. *See* Mycoses
CORRESPONDENCE
Detection of PAS in urine, 936
Effect of corticosteroid therapy on healing of pulmonary tuberculosis, 936
Effect of isoniazid on blood ammonia concentrations, 936, 937
Sodium salicylate-Ogawa medium, 592
Terminology for exchange of gas in the lungs, 293
Unclassified mycobacteria in a tuberculosis hospital, 592
Corticosteroid(s). *See* Hormones
Cortisone. *See* Hormones
Cough and weather, 352

Diaphragm, effect of hemiplegia on (Notes), 450
Disease, social-psychologic aspects of (editorial), 753
Drug
reactions to PAS (case reports), 440
resistance, 327, 337, 350, 811
in tuberculosis in United States (editorial), 350
in untreated patients, 327
in Veteran population with tuberculosis, 337
Dust, vegetable, pneumoconiosis from, 842

EDITORIAL
Needed research on the social-psychological aspects of disease, 753
Primary drug resistance in tuberculosis in United States, 350
Tuberculosis and World Health Day, 1964, 590
Effusion, pleural, effect on pulmonary function, 55
Electron-microscopy
in infection
with acid-fast bacilli, 485
with *M. tuberculosis*, 485
Emphysema
chronic pulmonary, methylprednisolone in, 528
pathomorphology of, 533
Part II, 721
pulmonary, chronic obstructive, peptic ulceration in, 909
sputum culture in (Notes), 760
and tuberculosis, 673
Ethionamide, mechanism of action of (Notes), 933
Expiratory flow rate. *See* Pulmonary function

Fistula(s), pulmonary, arteriovenous, cine-angiographic studies in (case reports), 95
Fomites
Coccidioides growth on, bedside transmission of, 175
tuberculosis transmitted by, 197
Fungus(i)
Coccidioides immitis, antibody reagents for, 651

Gas exchange in lungs (correspondence), 293
Guinea-pig virulence of Indian tubercle bacilli, 1

Heart function in pulmonary disease, Valsalva maneuver as test of, 64
Heaves in horses, 82
Helium and nitrogen, single-breath tests, 859
Hemiplegia, effect on diaphragm (Notes), 450
Hepatitis caused by PAS (case reports), 440
Histoplasmin sensitivity in West Virginia, 409
Hodgkin's disease of lung, with cavitation (case reports), 736
Hormone(s)
  corticosteroids in pulmonary tuberculosis (correspondence), 936
  cortisone
    and mycobacteriophages
      in sarcoidosis, 707
      in experimental tuberculosis, 707
  methylprednisolone, intravenous, in chronic, pulmonary emphysema, 528
Horses, heaves in, 82
Hungary, eastern, sarcoidosis in, 691
Hypercapnia in etiology of peptic ulceration in chronic obstructive pulmonary emphysema, 909
Hypoxia in etiology of peptic ulceration in chronic obstructive pulmonary emphysema, 909
Hytrast®, pneumonia induced by, 503

Isoniazid
  effect on blood ammonia concentration, 12
    correspondence on, 936, 937
  effect on protein synthesis of mycobacteria (Notes), 572
  nonthrombopenic purpura from sensitivity to (case reports), 103
  in pulmonary tuberculosis (Notes), 756

Johne's bacillus, susceptibility of, to chemotherapeutic agents (Notes), 289

Kerosene poisoning in children, roentgenographic changes in lungs due to, 250
Kyphoscoliosis, relation of pressure and volume of respiratory system in, 379

Leukocytes, changes of, in tuberculous infection, 429
Lobectomy in childhood, effect on pulmonary function, 801
Lung(s)
  abscess, due to *S. typhi* (case reports), 566
  alveolar proteinosis of, segmental flooding in (case reports), 745
  antibodies in pulmonary disease, 697
  cancer of, 519
  of children with kerosene poisoning, roentgenographic changes in, 250
  antibodies in, 697
  disease cardiac function in, Valsalva maneuver as test of, 64
  gas exchange in (correspondence), 293
  Hodgkin's disease of, with cavitation (case reports), 736
  pathology
    cinephotomicrography in study of, 200
    thick-section technique in study of 206
Lysis zones in cultures of tubercle bacilli in medium enriched with unsaponifiable lipid fractions (Notes), 448

Macrophages, alveolar, modified method for obtaining (Notes), 579
Medium
  bronchographic, pneumonic reaction induced by, 503
  enriched with unsaponifiable lipid fractions, ring and lysis zones in tubercle bacilli cultures in (Notes), 448
  sodium salicylate-Ogawa (correspondence), 592
Methylprednisolone. *see* Hormones
Mobile laboratory unit for exposure of animals and volunteers to bacterial and viral aerosols, 240
Mycobacteria
  acid-fast, nonchromogenic, in tuberculosis hospital, 497, 592
  atypical. *See* Mycobacteria, unclassified
  differential medium for (Notes), 108
  isolation of *N*-acetyl-L-cysteine as sputum digestant for (Notes), 284
  protein synthesis of, isoniazid effect on (Notes), 572
  unclassified,
    acid-fast, from tuberculous patients after treatment (Notes), 277
    antigens to, separation by ion-exchange chromatography, 29
    Group IIIa, and BCG, infection with in mice challenged with *M. tuberculosis* (Notes), 280
    immunologic relationship to typical, in mouse protection test study, 20
  typical, immunologic relationship to unclassified, in mouse protection test study, 20
Mycobacteriophage
  abortive infection and host killing of (Notes), 929
  activity on *M. avium*, 236
  and cortisone
    in sarcoidosis, 707
    in experimental tuberculosis, 707
  typing reagents on alternative hosts (Notes), 764

Mycobacterium
avium from fowl, bacteriophage susceptibility of, effect of temperature on, 236
fortuitum
as cause of pulmonary infection (case reports) 923
lysogenic, isolated from soil (Notes), 287
paratuberculosis. *See* Johne's bacillus
tuberculosis. *See also* Tubercle bacilli
challenge infection with, in mice, effects of BCG and unclassified mycobacteria on (Notes), 280
electron-microscopy in infection with, 485
Mycoses
aspergillosis, bronchopulmonary, 186
blastomycosis
North American, experimental, 89
in Veterans Administration hospitals, 659
coccidioidomycosis, bedside transmission of, via growth on fomites, 175
histoplasmosis
chronic, pulmonary, treatment with amphotericin B, 641
cooperative study, 641
laboratory-acquired, 631

N-acetyl-L-cysteine as sputum digestant for isolation of mycobacteria (Notes), 284
N-acetyl isoniazid in urine of ambulatory patients (Notes), 587
Nicotinamide-adenine dinucleotidase in organs from tuberculous mice (Notes), 575
Nitrogen and helium, single-breath tests, 859
Nocardiosis, cerebral, and alveolar proteinosis (case reports), 561
NOTES
Abortive infection and host killing of mycobacteriophage, 929
Bacterial species isolated from the sputum of patients with chronic bronchitis. Comparison of homogenization and nonhomogenization techniques, 116
Chloroquine therapy of sarcoidosis. Hazards of a limited trial, 105
Comments on use of new mucolytic agent, *N*-acetyl-L-cysteine, as sputum digestant for isolation of mycobacteria, 284
Comparative sensitivity of tuberculin tine test and Mantoux test in guinea pigs, 926
Cultivation of acid-fast organisms from tuberculous patients after prolonged and intensive treatment, 277
Derivation of new mycobacteriophage typing reagents by propagation on alternative hosts, 764
Differential medium for mycobacteria, 108
Effect of hemiplegia on the diaphragm, 450
Effect of isoniazid on protein synthesis of mycobacteria, 572
Effects in mice of infection with *Group IIIa* unclassified mycobacteria and BCG on challenge infection with *M. tuberculosis*, 280
Evaluation of some methods for culturing sputum from patients with bronchitis and asthma, 760
In situ method for harvesting guinea pig alveolar macrophages, 579
Isolation of a lysogenic *Mycobacterium fortuitum* from soil, 287
Mechanism of action of ethionamide (Notes), 933
Modified thoracentesis technique, 106
New method for determination of N-acetyl isoniazid in urine of ambulatory patients, 587
Perfusion culture chamber for phase-contrast studies, 581
Regression techniques to solve unequal challenge potency problems in antituberculosis vaccine assays, 111
Ring and lysis zones in cultures of tubercle bacilli in medium enriched with unsaponifiable lipid fractions. Their intervention in colony growth and dissociation. Significance of the differentiated populations, 448
Single daily-dose regimen of isoniazid and PAS in the treatment of pulmonary tuberculosis, 756
Susceptibility of *Mycobacterium paratuberculosis* (Johne's bacillus) to chemotherapeutic agents, 289
Tests of ventilatory strength and mechanics. Graphs of normal values, 270
Tissue metabolism in infection. Soluble nicotinamide-adenine dinucleotidase in organs from tuberculous mice, 575
Tuberculous patients with sputum positive for tubercle bacilli. Newly reported in a metropolitan city, 444

OBITUARY
King, Donald Storrs, 298
Oxygen utilization of, effect of tuberculin upon, *in vitro* of peritoneal exudate cells from tuberculous guinea pigs, 429
Para-aminosalicylic acid
cause of skin rash, hepatitis, and hemolytic anemia (case reports), 440
in pulmonary tuberculosis (Notes), 756
in urine (correspondence), 936
Peptic ulceration in emphysema, hypercapnia and hypoxia in, 909
Perfusion culture chamber for phase-contrast studies (Notes), 581

Phase-contrast studies, perfusion culture chamber for (Notes), 581
Pituitary-adrenal function in chronic pulmonary tuberulosis, 835
Pleural effusion. *See* Effusion
Pneumoconiosis(es)
from vegetable dust, 842
berylliosis, chronic (case reports), 100
Pneumonia reaction induced by bronchographic medium, 503
Pneumonitis, radiation, bilateral, after unilateral therapy (case reports), 264
Population, urban, tuberculosis in (Notes), 444
Propylthiouracil
intravenous
effect on metabolism, 687
temperature, 687
Proteinosis, alveolar, and cerebral nocardiosis (case reports), 561
Pulmonary function
and cigarette smoking in healthy young adults, 73
effect of lobectomy in childhood on, 801
expiratory flow rate and subject effort, 402
helium and nitrogen single-breath tests, 859
pleural effusion effect on, 55
pulmonary surface tension in atelectasis, 372
ventilation in sarcoidosis, 897
ventilatory function in blowing out a match, 680
ventilatory syndrome, obstructive, and cavity in tuberculosis, 830
ventilatory tests (Notes), 270
correlations, normal standards, and interdependence, 214
Pulmonary infection due to *M. fortuitum* (case reports), 923
Pulmonary surface tension. *See* Pulmonary function
Purpura, nonthrombopenic, from sensitivity to isonizaid (case reports), 103

Radiation, unilateral, pneumonitis after (case reports), 264
Respiratory disease in southern West Virginia coal miners, 387
Respiratory system, relation of pressure and volume of, in kyphoscoliosis, 379
Ring zones in cultures of tubercle bacilli in medium enriched with unsaponifiable lipid fractions (Notes), 448
Roentgenography
cine-angiography in pulmonary arteriovenous fistulas (case reports), 95
pulmonary changes in lungs of children with kerosene poisoning, 250

Salmonella typhi, lung abscess due to (case reports), 566
Sarcoidosis
among Chinese (case reports), 917
chloroquine in (Notes), 105
in eastern Hungary, 691
mycobacteriophages and cortisone in, 707
ventilation in, 897
Sephadex, chromatography with, of nondialyzable BCG culture filtrate, 41
Skin rash caused by PAS (case reports), 440
Smoking
cigarette
effect on pulmonary function of healthy young adults, 73
effect on tracheal ciliary activity, 870
Soil, *M. fortuitum*, lysogenic, isolated from (Notes), 287
Sputum culture from patients with bronchitis and emphysema (Notes), 760
Sputum digestant, *N*-acetyl-L-cysteine, use of, in isolating mycobacteria (Notes), 284

Test(s)
agar double-diffusion precipitation, detection of antimycobacterial antibody in bovine serum by, 49
Mantoux and tuberculin tine compared in guinea pigs (Notes), 926
mouse protection, used in study of immunologic relationships of mycobacteria, 20
single-breath, nitrogen and helium, 859
tuberculin. *See* also Tuberculin
tuberculin tine and Mantoux compared in guinea pigs (Notes), 926
ventilatory (Notes), 270
correlations, normal standards, and interdependence in, 214
Thick-section technique in study of pulmonary pathology, 206
Thoracentesis, modified (Notes), 106
Tissue metabolism in infection (Notes), 575
Trachea, ciliary activity of, with reference to cigarette smoking, 870
Tubercle bacillus(i)
antibody against, detection of, in serum of tuberculin-positive cattle, 49
cultures, ring and lysis zones in (Notes), 448
Indian, guinea pig virulence of, 1
Tuberculin
effect of oxygen utilization *in vitro* of peritoneal exudate cells from tuberculous guinea pigs, 429
immunology and chemistry of, chromatography in, 41
test, conversion, from infected premises, 197
tine test compared with Mantoux test in guinea pigs (Notes), 926
Tuberculosis
and emphysema, 673

Tuberculosis cont'd
experimental
in guinea pigs with Indian strains, 1
nicotinamide-adenine dinucleotidase in organs from tuberculous mice (Notes), 575
first registered at death, 165
leukocytic changes in, 429
hospital, acid-fast, nonchromogenic mycobacteria in, 497, 592
in metropolitan city (Notes), 444
para-aminosalicylic acid in (Notes), 756
in previously untreated patients, drug resistance in, 327
relationship of cavity and obstructive ventilatory syndrome in, 830
no truce for, 589, 590
pulmonary
corticosteroids in (correspondence), 936
drug resistance in, 811
isoniazid in (Notes), 756
mycobacteriophages and cortisone in, 707
pituitary-adrenal function in, 835
transmitted by fomites, 197
in the United States, drug resistance in (editorial), 350
in Veteran population, drug resistance in, 337
Tuberculous population, nonhospitalized, medical supervision in, 416
United States, drug resistance in, 327, 337, 350
Urine
of ambulatory patients, N-acetyl isoniazid in (Notes), 587
PAS in (correspondence), 936

Vaccine, antituberculosis, assays in, solving unequal challenge potency problems in (Notes), 111
Valsalva maneuver in pulmonary disease, as test of cardiac function, 64
Ventilation. *See* Pulmonary function
Ventilatory syndrome. *See* Pulmonary function

Weather and cough, 352
West Virginia
histoplasmin sensitivity in, 409
southern, coal miners in, respiratory disease in, 387
World Health Organization
No Truce for Tuberculosis, 589, 590

Youth, healthy, cigarette smoking and pulmonary function in, 73

VOLUME 89
JANUARY–JUNE, 1964

PUBLISHED MONTHLY
AT MT. ROYAL AND GUILFORD AVENUES, BALTIMORE, MD., 21202
BY THE NATIONAL TUBERCULOSIS ASSOCIATION

CONTENTS: ORIGINAL ARTICLES

NUMBER 1, JANUARY, 1964

The Guinea Pig Virulence of Indian Tubercle Bacilli. BALBIR SINGH 1

The Lack of Effect of Isoniazid on the Blood Ammonia Concentration. HAROLD O. CONN 12

Immunologic Relationships between "Typical" and "Atypical" Mycobacteria as Studied by Means of the Mouse Protection Test. CHARLES O. SIEBENMANN AND CARMEL BARBARA 20

The Separation of Mycobacterial Antigens by Ion-Exchange Chromatography. I. Details of Chromatographic and Immunologic Procedures and Results with Four Strains of *M. Tuberculosis*. WILLIAM T. KNIKER AND JAMES B. LABORDE 29

The Immunology and Chemistry of Tuberculin. II. Chromatography with Sephadex of the Nondialyzable Tuberculin-active Constituents of BCG Culture Filtrate. SOTIROS D. CHAPARAS AND HAROLD BAER 41

The Detection of Antibody against Tubercle Bacilli in the Serum of Tuberculin-positive Cattle by an Agar Double-Diffusion Precipitation Technique. KEITH R. LONG AND F. H. TOP 49

The Effects of Pleural Effusion on Pulmonary Function. OK HI YOO AND ER YI TING 55

The Valsalva Maneuver as a Test of Cardiac Function in Patients with Pulmonary Disease. ROLF MALMBERG, GISELA ALBRECHT, AIDA BALTAZAAR, WILLIAM B. BUCKINGHAM, HAROLD LEVINE, AND DAVID W. CUGELL 64

Cigarette Smoking and Pulmonary Function in Healthy Young Adults. S. ZWI, H. I. GOLDMAN, AND A. LEVIN 73

Heaves in Horses. WILLIAM M. THURLBECK AND FRANCIS C. LOWELL 82

Experimental North American Blastomycosis. WILFORD E. MALDONADO AND FRANCES G. FELTON 89

Case Reports:

Pulmonary Arteriovenous Fistulas. Case Report with Cine-angiographic Studies. JAMES E. STANDEFER, BURTON S. TABAKIN, AND JOHN S. HANSON 95

Chronic Beryllium Disease due to Low Beryllium Content Alloys. HAROLD L. ISRAEL AND DAVID A. COOPER 100

Nonthrombopenic Purpura Resulting from Sensitivity to Isoniazid. JAMES T. DUNCAN 103

Notes:

Chloroquine Therapy of Sarcoidosis. Hazards of a Limited Trial. L. LEVY 105

A Modified Thoracentesis Technique. L. HOFFMAN 106

A Differential Medium for Mycobacteria. N. M. MINSLEY 108

Regression Techniques to Solve Unequal Challenge Potency Problems in Antituberculosis Vaccine Assays. A. HOYT *et al.* 111

Bacterial Species Isolated from the Sputum of Patients with Chronic Bronchitis. A comparison of Homogenization and Nonhomogenization Techniques. D. MASSARO *et al.* 116

Books 119

American Thoracic Society:
Organization and Committee Structure, 1963–1964 124
Notices 135
Abstracts 137

NUMBER 2, FEBRUARY, 1964

Tuberculosis First Registered at Death. DAVID G. SIMPSON AND ANTHONY M. LOWELL 165
Bedside Interhuman Transmission of Coccidioidomycosis via Growth on Fomites. An Epidemic Involving Six Persons. BERTRAM H. ECKMANN, GERSCHEN L. SCHAEFER, AND MILTON HUPPERT 175
Bronchopulmonary Aspergillosis. Correlation of the Clinical and Laboratory Findings in 272 Patients Investigated for Bronchopulmonary Aspergillosis. M. J. CAMPBELL AND YVONNE M. CLAYTON 186
Presumably Infected Premises with Respect to Conversion of the Tuberculin Test. JOHN S. CHAPMAN AND MARGARET D. DYERLY 197
The Use of Cinephotomicrography of Serial Sections in the Study of Lung Pathology. JEROME KLEINERMAN AND C. RICHARD COWDREY 200
The Thick-Section Technique for the Study of Pulmonary Pathology. JEROME KLEINERMAN AND C. RICHARD COWDREY 206
Correlations, Normal Standards, and Interdependence in Tests of Ventilatory Strength and Mechanics. ALFRED W. BRODY, HARRY J. WANDER, PATRICK S. O'HALLORAN, JOHN J. CONNOLLY, JR., AND FREDERICK W. SCHWERTLEY 214
Effect of Temperature on the Bacteriophage Susceptibility of Strains of *Mycobacterium Avium* Isolated from Fowl. SEYMOUR FROMAN AND LOIS SCAMMON 236
A Mobile Laboratory Unit for Exposure of Animals and Human Volunteers to Bacterial and Viral Aerosols. WILLIAM R. GRIFFITH 240
Roentgenographic Changes in the Lungs of Children with Kerosene Poisoning. S. BRÜNNER, H. ROVSING, AND H. WULF 250

Case Reports:
Origin of One Pulmonary Artery from the Aorta. J. GERARD MUDD, VALLEE L. WILLMAN, AND ANGELO RIBERI 255
Radiation Pneumonitis. Case Report of Bilateral Reaction after Unilateral Irradiation. J. CHANDLER SMITH 264

Notes:
Tests of Ventilatory Strength and Mechanics. Graphs of Normal Values. ALFRED W. BRODY *et al.* 270
Cultivation of Acid-fast Organisms from Tuberculous Patients after Prolonged and Intensive Treatment. E. DARZINS AND A. PUKITE 277
The Effects in Mice of Infection with *Group IIIA* Unclassified Mycobacteria and BCG on Challenge Infection with *M. Tuberculosis*. FRANK P. DUNBAR *et al.* 280
Comments on the Use of the New Mucolytic Agent *N*-Acetyl-L-Cysteine as a Sputum Digestant for the Isolation of Mycobacteria. G. P. KUBICA *et al.* 284

Isolation of a Lysogenic *Mycobacterium Fortuitum* From Soil. RUTH L. RUSSELL *et al.* 287
The Susceptibility of *Mycobacterium Paratuberculosis* (Johne's Bacillus) to Chemotherapeutic Agents. L. EIDUS AND H. KONST 289
Correspondence: Terminology for Exchange of Gas in the Lungs. J. E. COTES .. 293
Books 294

Obituary 298
Notices 299
Abstracts 301

NUMBER 3, MARCH, 1964

Primary Drug Resistance
Prevalence of Drug Resistance in Previously Untreated Patients. UNITED STATES PUBLIC HEALTH SERVICE COOPERATIVE INVESTIGATION 327
A Continuing Study of Primary Drug Resistance in Tuberculosis in a Veteran Population within the United States. GLADYS L. HOBBY, PEGGY M. JOHNSON, TULITA F. LENERT, LORRAINE CRAWFORD-GAGLIARDI, LYNN GREETHAM, THERESA IVASKA, AUSMA LAPIN, JOYCE MAIER, PATRICIA O'MALLEY, AND CAROL TREMBLEY 337
Editorial: Primary Drug Resistance in Tuberculosis in the United States. AARON D. CHAVES 350
Weather and Cough. ROBERT G. LOUDON 352
Chronic Obstructive Bronchopulmonary Disease. I. Clinical Features. ROGER S. MITCHELL AND GILES F. FILLEY 360
Pulmonary Surface Tension in Experimental Atelectasis. T. N. FINLEY, W. H. TOOLEY, E. W. SWENSON, R. E. GARDNER, AND J. A. CLEMENTS 372
The Relation of Pressure and Volume of the Total Respiratory System and Its Components in Kyphoscoliosis. ER YI TING AND HAROLD A. LYONS 379
Respiratory Disease in Southern West Virginia Coal Miners. R. E. HYATT, A. D. KISTIN, AND T. K. MAHAN 387
Subject Effort and the Expiratory Flow Rate. BRUCE. J SOBOL AND CEMIL EMIRGIL . 402
Histoplasmin Sensitivity in West Virginia. CHARLES E. ANDREWS, JOHN J. LAWLESS, AND JOSEPH RUGGIERO 409
Medical Supervision in a Nonhospitalized Tuberculous Population. DONALD HOCHSTRASSER AND SALLY LERNER 416
Studies on the Early Changes of Leukocytes in Tuberculous Infection. III. The Effect of Tuberculin upon the Oxygen-Utilization *in Vitro* of Peritoneal Exudate Cells from Guinea Pigs at Different Levels after Infection with *Mycobacterium Tuberculosis*. O. SCHWEIGER, A. TOMCSÁNYI, AND B. LÖW .. 429

Case Reports:
Chronic Bronchitis—Reversible and Nonfatal. T. W. TREADWELL, JR., AND MYRA D. TYLER 435
Skin Rash, Hepatitis, and Hemolytic Anemia Caused by P-Amniosalicylic Acid. GEORGE BOWER 440

Notes:

Tuberculous Patients with Sputum Positive for Tubercle Bacilli. S. C. Stein and G. K. Trivedi 444

Ring and Lysis Zones in Cultures of Tubercle Bacilli in Medium Enriched with Unsaponifiable Lipid Fractions. M. Blechmann *et al* 448

The Effect of Hemiplegia on the Diaphragm. M. Smith 450

Books 453

American Thoracic Society:

Necrology 457

Notices 457

Abstracts 459

Number 4, April, 1964

An Electron-Microscopic Study of Experimental Infections with Acid-fast Bacilli. John J. Merckx, Arnold L. Brown, Jr., and Alfred G. Karlson 485

Unclassified Acid-fast Chromogens Encountered in Fourteen Patients in a Tuberculosis Hospital. C. Edwin Smith and Ingrid Stergus 497

Pneumonic Reaction Induced by a Bronchographic Medium. A Clinical and Experimental Study. Donald F. Rayl and Harlan J. Spjut 503

The Natural History of Lung Cancer. Katherine R. Boucot, David A. Cooper, William Weiss, and William J. Carnahan 519

A Study of the Physiologic Effects of Intravenous Methylprednisolone in Chronic Pulmonary Emphysema. Louis J. Pecora, Albert R. Zoss, Gerald L. Baum, William Kho, and Alfonse Tan 528

The Pathomorphology of the Emphysema Complex. Part I. John P. Wyatt, Vernon W. Fischer, and Herbert C. Sweet 533

Case Reports:

Cerebral Nocardiosis and Alveolar Proteinosis. M. Taleghani-Far, Jesse B. Barber, Calvin Sampson, and K. Albert Harden 561

Lung Abscess due to *Salmonella Typhi*. Otto H. Hahne 566

Notes:

Effect of Isoniazid on Protein Synthesis of Mycobacteria. Michio Tsukamura and Sumio Tsukamura 572

Tissue Metabolism in Infection. Soluble Nicotinamide-Adenine Dinucleotidase in Organs from Tuberculous Mice. A. Bekierkunst *et al* 575

An *in Situ* Method for Harvesting Guinea Pig Alveolar Macrophages. Kameron W. Maxwell *et al* 579

A Perfusion Culture Chamber for Phase-Contrast Studies. S. Shadomy *et al* 581

A New Method for the Determination of N-Acetyl Isoniazid in Urine of Ambulatory Patients. L. Eidus and E. J. Hamilton 587

World Health Organization:

No Truce for Tuberculosis. G. M. Candau; Luther L. Terry 589

Editorial: Tuberculosis and World Health Day, 1964. James E. Perkins 590

Correspondence: Unclassified Mycobacteria in a Tuberculosis Hospital. R. F. Payne; **Sodium Salicylate-Ogawa Medium.** A. A. Tomasovic 592

CONTENTS: ORIGINAL ARTICLES

NUMBER 1, JULY 1964

American Emphysema and British Bronchitis. A Standardized Comparative Study. C. M. FLETCHER, N. L. JONES, B. BURROWS, AND A. H. NIDEN 1

Clinical Types of Chronic Obstructive Lung Disease in London and in Chicago. A Study of One Hundred Patients. B. BURROWS, A. H. NIDEN, C. M. FLETCHER, AND N. L. JONES 14

Single-Breath Diffusing Capacity as an Aid in Evaluation and Prognosis of Cardiopulmonary Disease. J. HOWLAND AUCHINCLOSS, JR., AND ROBERT GILBERT 28

Studies on the Specific Tuberculin Reaction. Tuberculin Conversion in Tuberculosis Contacts. KATHERINE H. K. HSU, FONGEE JEU, AND DANIEL E. JENKINS 36

Social and Other Factors in Intrafamilial Transmission of Tuberculosis. JOHN S. CHAPMAN AND MARGARET D. DYERLY 48

Relapse in Treated Cases of Pulmonary Tuberculosis. II. Six-Year Follow-up of 109 Patients Discharged from the Hospital with Medical Approval, 1955–1956. SAMUEL PHILLIPS 61

Coexistence of Carcinoma and Tuberculosis of the Lung. S. DONALD GREENBERG, DANIEL E. JENKINS, DAVID BAHAR, H. IRVING SCHWEPPE, JR., AND HAROLD BLOCK, JR. 67

Repeated Tuberculin Tests at the Same Site in Tuberculin-positive Patients. BELA O. DUBOCZY 77

The Immunology and Chemistry of Tuberculin. III. Dialyzable BCG Culture Filtrate Components Obtained by Sephadex Chromatography and Fractional Dialysis. SOTIROS D. CHAPARAS AND HAROLD BAER 87

The Immunogenicity of BCG (Phipps) and Its Isoniazid-resistant Mutant in Guinea Pigs Simultaneously Vaccinated, Infected, and Treated. MORRIS DWORSKI 97

Case Reports:

Obesity-Hypoventilation Syndrome in Siblings. HERMAN L. FALSETTI, JOHN S. HANSON, AND BURTON S. TABAKIN 105

Successful Treatment with the Mucolytic Agent Acetylcysteine. PASCAL J. IMPERATO, LILIA M. PALANCA, AND JOHN P. FERNANDEZ 111

Editorial: Tuberculosis Eradication: The Cincinnati Project. T. AIDAN COCKBURN, KENNETH I. E. MACLEOD, HERMAN NIMITZ, FRANK KELLOGG, KENNETH CURFMAN, GERALD BAUM, JOHN H. SKAVLEM, PHILLIP COHN, AND CATHERINE E. LUDLOW 116

Notes:

Relapse in Treated Cases of Pulmonary Tuberculosis. I. Three-Year Follow-up of 312 Patients Discharged from the Hospital with Medical Approval, 1947–1954. S. PHILLIPS 120

Spirometry in School-Age Children. A. L. DUELL 123

Isolation of Pleomorphic Acid-fast Organism from Liver and Blood of Carcinogen-Fed Rats. I. C. Diller and G. Medes 126

Veterans Administration-Armed Forces:

Twenty-third Research Conference in Pulmonary Diseases. Emil Rothstein 129

Books 139

American Thoracic Society:

Obituary 144

Notices 145

Abstracts 147

Number 2, August 1964

A Pilot Study of Acute Respiratory Illnesses on a College Campus. Albert Z. Kapikian, Karl M. Johnson, Robert M. Chanock, Joseph A. Bell, Lester M. Dyke, and Russell E. Iler 175

Bed Rest and Institutional Treatment in Pulmonary Tuberculosis. A. A. Brace and E. A. Spriggs 183

Eosinophilic Pleural Effusion. A Review with the Presentation of Seven New Cases. Guy D. Campbell and Watts R. Webb 194

Physiologic Aspects of Idiopathic Unilateral Hyperlucent Lung. With a Review of the Literature. Donald C. Kent 202

Diffusion Impairment in Obstructive Pulmonary Emphysema. Thomas P. K. Lim and William E. Brownlee 213

Radiopulmonography. A Method for Simultaneous Estimation of Regional Lung Ventilation by Transmission of X-rays. M. J. Small, W. N. Miller, G. C. Leiner, H. D. Strauss, and S. Abramowitz 223

Effect of Mononuclear Cell Depletion by Cortisone on Hypersensitivity of Leukocytes from Tuberculous Guinea Pigs to PPD. Roger W. Johnson and M. Scherago 231

The Significance of Mycobacteria Other than Tubercle Bacilli in the Urine. A Report of Forty-two Cases. Carl M. Pellman and Ernest H. Runyon 243

Case Report:

Isoniazid Intoxication. Visith Sitprija and Joseph H. Holmes 248

Editorial: The Mycobacterial Mystique: Deterrent to Taxonomy. Lawrence G. Wayne 255

Notes:

***In Vitro* Tests with 4:4-Diisoamyloxythiocarbanilide.** L. Eidus and E. J. Hamilton 258

A Ten-Year Review of Spontaneous Pneumothorax in an Armed Forces Hospital. H. M. Beumer 261

Alternating Regimens of Streptomycin-Parazinamide, Isoniazid-Para-aminosalicylic Acid at Battey State Hospital. R. F. Corpe and F. A. Blalock 262

The Urease Activity of Mycobacteria. K. Urabe and H. Saito 266
Bulletin of the World Health Organization: Abstracts of Articles in Volume 25, No. 6. Agnes Fahy 268
Correspondence: Nomenclature of the Mycobacteria. J. Marks, G. P. Youmans, and L. G. Wayne 278
Books 280

Notices 319
Abstracts 323

Number 3, September 1964

Health Challenges Today. A Public Health Vision. George James 349
Natural History of Tuberculosis in the Human Body. VI. Prognosis among Tuberculin Reactor Children of Six to Twelve Years. J. Arthur Myers, J. E. Bearman, and Hubert G. Dixon 359
Programs for the Surveillance of Tuberculosis in Schools of Medicine and Nursing. Charles E. Lewis 370
Pulmonary Function in Ankylosing Spondylitis. John M. Miller and Brian J. Sproule 376
Disability in Patients with Obstructive Pulmonary Disease. Robert Gilbert, John Keighley, and J. H. Auchincloss, Jr. 383
Air Trapping in Chronic Bronchitis and Emphysema. Measurements of the Bronchial Cartilage. G. Restrepo and Brian E. Heard 395
Architecture of Lung Parenchyma. Studies with a Specially Designed X-ray Microscope. Charles Oderr 401
Topography of Aging and Emphysematous Lungs. William F. Anderson, Augustus E. Anderson, Jr., J. A. Hernandez, and Alvan Foraker 411
Effects of Tracheotomy in Chronic Pulmonary Disease. Joseph L. Grant, Jean Cook, and Daniel P. Moulton 424
Phage Induction of Lysogenic Mycobacteria. Tohru Tokunaga, Yasuo Mizuguchi, and Toyoho Murohashi 431

Case Reports:

An Interesting Microorganism Recovered from Three Patients with Systemic Disease. Donald B. Louria, Erna Alture-Werber, and Donna O'Hare 437

Notes:

An X-Ray Microscope Designed for Study of Lung Parenchyma. C. Oderr and M. Dauzat 448
False-positive C-Reactive Protein Reactions Due to Serum Lipoproteins. G. B. Elliott and G. Horner 453
A Rapid 24-Hour Micro-Phenolphthalein Sulfatase Test for Distinguishing *M. Avium* from the Atypical Battey Bacilli. An Improved Procedure. M. S. Tarshis 455

The Bactericidal Action of Penicillin and Penicillin-Isoniazid Combinations against *Mycobacterium Tuberculosis*. E. M. K. VAICHULIS *et al.* 458

Correspondence: Comparability and Noncomparability of the Tuberculin Tine and Mantoux Tests. G. WIJSMULLER; **Possible Role of Precipitins against *Aspergillus Fumigatus*.** J. PEPYS; **Idiopathic Pulmonary Hemosiderosis.** A. J. KARLISH AND E. H. HEMSTED; **A Comparative Study of the Susceptibility to Ethionamide, Thiosemicarbazone, and Isoniazid of Tubercle Bacilli from Patients Never Treated with Ethionamide or Thiosemicarbazone.** TAN THIAM HOK; **Hospitalization of Tuberculosis Patients.** A. SUBJECTS

Acetylcysteine
in reduction of viscosity of human tracheobronchial secretions, 721
in treatment of Kartagener's syndrome (case reports), 111
Adjuvant 65 in viral vaccines, 683
Agglutination reactions in analysis of antigenic relationships among mycobacteria (Notes), 800
Agglutinin-absorption reactions in analysis of antigenic relationships among mycobacteria (Notes), 800
Air pollution
and respiratory disease
in Berlin, New Hampshire, 877
in Japan, 572
Air trapping. *See* Pulmonary function
Alanine cycloserine antagonism, 646
Amberson, J. Burns, lecture, 505
AMERICAN THORACIC SOCIETY
Abstracts of papers presented at the annual meeting of the American Thoracic Society, May 24-27, 1964, 284
Award of the Will Ross Medal for 1964, 816
Award of the Trudeau Medal for 1964, 814
Necrology, 654
Notices, 145, 319, 473, 652, 818, 973
Obituary, 144
Antibodies, complement-fixing, and precipitins in histoplasmin-sensitive persons, 927
Aspergillus fumigatus, precipitins against (correspondence), 465
Asthma
pulmonary function in, 564
Tokyo-Yokohama, among Japanese, 632

Bacillus (i)
acid-fast, occurrence of alanine—cycloserine antagonism among, 646
Battey, atypical, distinguished from *M. avium* by microphenolphthalein sulfatase test (Notes), 455
BCG
culture filtrate components, dialyzable, obtained by Sephadex chromatography and fractional dialysis, 87
Phipps
immunogenicity of, in guinea pigs, 97
isoniazid-resistant mutant of, in guinea pigs, 97
Bed rest and institutional treatment in pulmonary tuberculosis, 183
BOOKS
Advances in Tuberculosis Research, Volume 13. Edited by H. BIRKHAUSER *et al.*, 140
Chest Film in Massive Pulmonary Embolism. By DANIEL J. TORRANCE, JR., 470
Circulatory Physiology. Cardiac Output and Its Regulation. By ARTHUR C. GUYTON, 281

Pathogenesis of Leprosy. Edited by G. E. W. WOLSTENHOLME and MAEVE O'CONNOR, 470
Pathology of the Upper Respiratory Tract. By R. E. REWELL, 970
Resistance of Bacteria to the Penicillins. Ciba Foundation Study Group No. 12. Edited by A. V. S. DE REUCK and MARGARET P. CAMERON, 140
Social Research Consultation. An Experiment in Health and Welfare Planning. By ROLAND L. WARREN, 811
Die Tuberkulose und Ihre Grenzgebiete. Vol. XV. By TH. JOHANNES, 971

Books (cont'd)
Tuberkulose-Jahrbuch 1961. Edited by FRITZ KREUSER, 812
Vascular Allergy and Its Systemic Manifestations. By JOSEPH HARKAVY, 471
Bronchitis
chronic
and emphysema, air trapping in, 395
in Great Britain, 1, 14
Bronchopulmonary disease, chronic, obstructive, sputum content in, 730
Bronchus
cartilage of, in air trapping in bronchitis and emphysema, 395
human, normal and bronchitic, electron microscopy of epithelial cells of, 851
tubes of, histologic changes in, 867
Bulletin of the World Health Organization, abstracts from articles in volume 25, No. 6, 268

Canada, Ontario, epidemiologic study of tuberculosis in, 707
Cancer, carcinogen-fed rats, isolation of pleomorphic acid-fast organism from liver and blood of (Notes), 126
Capreomycin, susceptibility of tubercle bacilli to, 640
Carcinoma. *See* Tumor(s)
Cardiopulmonary disease, diffusing capacity as aid in evaluation and prognosis of, 28
Coccidioidomycosis among southwestern Indians, 920
Conference on pulmonary diseases, Twenty-third Research Conference of Veterans Administration-Armed Forces, 129
CORRESPONDENCE
Comparability and noncomparability of the tuberculin tine and Mantoux tests, 462
Comparative study of the susceptibility to ethionamide, thiosemicarbazone, and isoniazid of tubercle bacilli from patients never treated with ethionamide or thiosemicarbazone, 468
Hospitalization of tuberculous patients, 469
Idiopathic pulmonary hemosiderosis, 467
Nomenclature of the mycobacteria, 278, 279
Possible role of precipitins against *Aspergillus fumigatus*, 465
Precautions to prevent cross-infection during use of heated aerosol inhalation equipment for sputum induction, 968
Corticosteroids. *See* Hormones
Cortisone. *See* Hormone(s)
C-reactive protein reactions due to serum lipoproteins (Notes), 453
Cross-infection, prevention of, in use of heated aerosol inhalation equipment (correspondence), 968
Cycloserine
—alanine antagonism, 646
susceptibility of tubercle bacilli in patients never treated with cycloserine, viomycin, or kanamycin (Notes), 961

Dialysis, fractional, in separation of BCG culture filtrates, 87
Diffusing capacity. *See* Pulmonary function.
4,4′-Diisoamyloxythiocarbanilide, *in vitro* tests with (Notes), 258
Drug(s)
reactions to
ethionamide, hepatitis induced by, 542
isoniazid, PAS, and streptomycin, 598
resistance to
PAS, 642
streptomycin, 640, 642
viomycin, 640
resistance, primary, in tuberculosis (Notes), 516, 792

Echinococcosis, pulmonary (case reports), 623
EDITORIAL
Mycobacterial mystique: Deterrent to taxonomy, 255
Tuberculosis eradication: the Cincinnati project, 116
Twenty years afterward. Historical notes on the discovery of the antituberculosis effect of PAS and the first clinical trials, 953
Effusion, pleural, eosinophilic, 194
Electron microscopy of epithelial cells of normal and bronchitic human bronchus, 851
Emphysema
and chronic bronchitis, air trapping in, 395
pulmonary function in, 553, 564
obstructive, pulmonary, diffusion impairment in, 213
in the United States, 1, 14
Epidemiology of tuberculosis, model for, 582
Ethionamide
hepatitis induced by, 542
susceptibility of tubercle bacilli from patients never treated with ethionamide or thiosemicarbazone (correspondence), 468

Gel double-diffusion test. *See* Tests
Glaucoma screening in tuberculosis hospital, 637
Glycolipids, toxic, from purified wax and Ushi 10 strain of *Mycobacterium tuberculosis*, 779
Granuloma. *See* Tumors
Great Britain, bronchitis in (London), 1, 14

Hairspray, effect on pulmonary ventilation, 786
Health challenges today (Keynote address at annual meeting), 349

Hemosiderosis, idiopathic, pulmonary (correspondence), 467
Hepatitis induced by ethionamide, 542
Histoplasma capsulatum injected into dogs, effect of migration of leukocytes (Notes), 806
Histoplasmin
  effect on migration of leukocytes in dogs injected with *H. capsulatum* (Notes), 806
  skin test, effect of, on development of complement-fixing and precipitins in histoplasmin-sensitive persons, 927
Hormones
  corticosteroids, adrenal, in pulmonary tuberculosis, 754
  cortisone, effect on hypersensitivity of leukocytes, 231
Hydatid pleural disease (case reports), 623

Immunogenicity of BCG (Phipps), in guinea pigs, 97
Indians, southwestern, coccidioidomycosis among, 920
Iontophoresis of sweat electrolyte, 736
Isoniazid
  bactericidal effect of, as function of time, 749
  intoxication (case reports), 248
  -PAS alternated with streptomycin-pyrazinamide (Notes), 262
  and penicillin-isoniazid against *M. tuberculosis* (Notes), 458
  reactions to, 598
  -resistant mutant of BCG in guinea pigs, 97
  susceptibility of tubercle bacilli from patients never treated with ethionamide or thiosemicarbazone (correspondence), 468

Kanamycin susceptibility of tubercle bacilli in patients never treated with cycloserine, viomycin, or kanamycin (Notes), 961
Kartagener's syndrome, treatment with acetylcysteine (case reports), 111

Leukocytes
  early changes in tuberculous infection, 635
  hypersensitivity of, effect of cortisone on, 231
Lung(s)
  aging and emphysematous, 411
  canine, bronchiolo-alveolar tumors of, caused by plutonium particles (Notes), 963
  disease
    caused by aspirated Timothy-grass heads (case reports), 947
    chronic obstructive, clinical types of, 1, 14
  eosinophilic granuloma of (case reports), 789
  idiopathic, unilateral, hyperlucent, physiologic aspects of, 202
  parenchyma
    architecture of, 401
    histologic changes in, 867
    x-ray microscope used for study of (Notes), 448

Measles vaccination, effect on tuberculin sensitivity, 607
Microorganism, interesting, recovered from patients with systemic disease (case reports), 437
Micro-phenolphthalein sulfatase test. *See* Test(s)
Midexpiratory flow rate. *See* Pulmonary function
Mononucleosis, infectious, with bullous, hemorrhagic myringitis (case reports), 944
Mucolytic agents, acetylcysteine, in treatment of Kartagener's syndrome (case reports), 111
Mycobacteria
  antigenic relationships among, by agglutination and agglutinin-absorption reactions (Notes), 800
  Battey type, enhancement or virulence for chickens by preincubation (Notes), 804
  classification and identification of, 588
  isolation of toxic substances from, 779
  other than tubercle bacilli in the urine, 243
  phage induction of, 431
  photochromogenic, pathogenicity of, for dogs (Notes), 809
  taxonomy of (correspondence), 278, 279
  typical and atypical, multiple infections with, 899
  urease activity of (Notes), 266
Mycobacterium
  avium, distinguished from atypical Battey bacilli by micro-phenolphthalein sulfatase test (Notes), 455
  tuberculosis
    isoniazid and penicillin-isoniazid against (Notes), 458
    resistance of streptomycin and PAS to methods of detecting, 642
    strain H37Ra, infection in mice, 742
    Ushi 10 strain, toxic glycolipids isolated from, 779
Myringitis, hemorrhagic, bullous, with infectious mononucleosis (case reports), 944

New Hampshire, Berlin, respiratory disease and air pollution in, 877
NOTES
  Alanine—cycloserine antagonism. V. Occurrence among acid-fast bacilli, 646
  Alternating regimens of streptomycin-pyrazinamide, isoniazid-PAS at Battey State Hospital, 262
  Antigenic relationships among mycobacteria

Notes (cont'd)

by agglutination and agglutinin-absorption reactions, 800

Bactericidal action of penicillin and penicillin-isoniazid combinations against *Mycobacterium tuberculosis*, 458

Bronchiolo-alveolar tumors of the canine lung following inhalation of plutonium particles, 963

Capreomycin susceptibility of strains resistant to streptomycin and/or viomycin, 640

Comparative study of susceptibility of streptomycin, cycloserine, viomycin, and kanamycin of tubercle bacilli from 100 patients never treated with cycloserine, viomycin, or kanamycin, 961

Comparison of two current methods for detecting streptomycin and PAS resistance in *Mycobacterium tuberculosis*, 642

Effect of histoplasmin on the *in vitro* migration of leukocytes from dogs injected with *Histoplasma capsulatum*, 806

Enhancement of virulence for chickens of Battey type of mycobacteria by preincubation at 42°C., 804

False-positive C-reactive protein reactions due to serum lipoproteins, 453

Glaucoma screening at C. Howard Marcy State Hospital for Tuberculosis, 637

In vitro tests with 4,4′-diisoamyloxythiocarbanilide, 258

Isolation of a pleomorphic acid-fast organism from liver and blood of carcinogen-fed rats, 126

Pathogenicity of photochromogenic mycobacteria for dogs, 809

Primary drug resistance in tuberculosis, 792

Rapid 24-hour micro-phenolphthalein sulfatase test for distinguishing *M. avium* from atypical Battey bacilli, 455

Relapse in treated cases of pulmonary tuberculosis. Three-year follow-up of 312 patients discharged from the hospital with medical approval, 1947–1954, 120

Re-treatment of drug-resistant pulmonary tuberculosis at Battey State Hospital, 957

Spirometry in school-age children, 123

Studies on the early changes of leukocytes in tuberculous infection. IV. The effect of tuberculin on the oxygen utilization of peritoneal exudate cells of guinea pigs infected *in vitro* with *Mycobacterium tuberculosis*, 635

Study of Tokyo-Yokohama asthma among Japanese, 632

Ten-year review of spontaneous pneumothorax in an armed forces hospital, 261

Urease activity of mycobacteria, 266

X-ray microscope designed for study of lung parenchyma, 448

Obesity-hypoventilation syndrome in siblings (case reports), 105

OBITUARY

Butler, Ethan Flagg, 144

Ohio, Cincinnati, tuberculosis eradication in (editorial), 116

Paleopathology, tuberculosis in ancient Egypt, 524

Para-aminosalicylic acid

antituberculosis effect of, discovery of (editorial), 953

first clinical trials of (editorial), 953

-isoniazid alternated with streptomycin-pyrazinamide (Notes), 262

reactions to, 598

resistance of *M. tuberculosis* to, 642

Penicillin and penicillin-isoniazid against *M. tuberculosis* (Notes), 458

Phage induction of lysogenic mycobacteria, 431

Pickwickian syndrome (case reports), 105

Pleural effusion. *See* Effusion

Plutonium particles, causing bronchiolo-alveolar tumors in canine lung (Notes), 963

Pneumothorax, spontaneous, in armed forces hospital (Notes), 261

Pott's disease, treated without spinal fusion, 888

Precipitins

against *A. fumigatus* (correspondence), 465

and complement-fixing antibodies in histoplasmin-sensitive persons, 927

Pulmonary disease

chronic, tracheotomy in, 424

obstructive, disability in patients with, 383

Twenty-third Research Conference, Veterans Administration-Armed Forces, 129

Pulmonary function

air trapping in chronic bronchitis and emphysema, 395

in ankylosing spondylitis, 376

arterial blood studies, in emphysema, 553

in asthma, 564

diffusing capacity, single-breath, in evaluation and prognosis of cardiopulmonary disease, 28

in emphysema, 564

midexpiratory flow rate in users of hairspray, 786

tests in prognosis of emphysema, 553

vital capacity, derminants of, 771

Pyrazinamide-streptomycin alternated with isoniazid-PAS (Notes), 262

Radiopulmonography, 223

Resection, pulmonary, for tuberculosis, 5- to 17-year end results, 760
Respiratory disease
  and air pollution in Berlin, New Hampshire, 877
  relation to air pollution, in Japan, 572
  on college campus, pilot study of, 175

Sarcoidosis in Japan, 612
Sephadex® chromatography, in separation of BCG culture filtrates, 87
Serum
  bovine in gel double-diffusion test to diagnose tuberculosis in cattle, 935
  lipoproteins, C-reactive protein reactions to (Notes), 453
Spinal fusion in Pott's disease, 888
Spirometry in school-age children, 123
Spondylitis, ankylosing, pulmonary function in, 376
Streptomycin
  -pyrazinamide alternated with isoniazid-PAS (Notes), 262
  reactions to, 598
  resistance of tubercle bacilli to, 640, 642
  susceptibility of tubercle bacilli in patients never treated with cycloserine, viomycin, or kanamycin (Notes), 961
Sweat electrolyte, iontophoresis and analysis of, 736
Systemic disease in patients from whom interesting microorganism was recovered (case reports), 327

Taxonomy, mycobacterial mystique: deterrent to (editorial), 255
Tests
  gel double-diffusion, with bovine serum to diagnose tuberculosis in cattle, 935
  micro-phenolphthalein sulfatase to distinguish *M. avium* from atypical Battey bacilli (Notes), 455
Thiosemicarbazone susceptibility of tubercle bacilli from patients never treated with ethionamide or thiosemicarbazone (correspondence), 468
Timothy-grass in lung disease (case reports), 947
Tracheobronchial secretions, viscosity of, reduced *in vitro* by acetylcysteine, 721
Tracheotomy in chronic pulmonary disease, 424
Tubercle bacillus (i), resistance of streptomycin and PAS to methods of detecting, 642
Tuberculin
  chemistry of, 87
  conversion, in tuberculosis contacts, 36
  effect on oxygen utilization of cells in infected guinea pigs, 635
  immunology of, 87
  Mantoux test compared with tine test (correspondence), 462
  reaction, specific, 36
  reactors, 6- to 12-year old children, prognosis among, 359
  sensitivity and measles vaccination, 607
  test reading, 913
  tests, repeated at same site in tuberculin-positive patients, 77
  tine test compared with Mantoux test (correspondence), 462
Tuberculosis
  in ancient Egypt, 524
  in cattle, gel double-diffusion test and bovine serum to diagnose, 935
  control in schools of medicine and nursing, 370
  in decline, 707
  drug resistance in, 516
  epidemiology of, model for, 582
  eradication, in Cincinnati (editorial), 116
  experimental, early changes of leukocytes in infection, 635
  hospitalization for (correspondence), 469
  in human body, natural history of, 359
  immunity, acquired, to, 505
  intrafamilial transmission of, social and other factors in, 48
  primary drug resistance in (Notes), 792
  pulmonary
    adrenal corticosteroids in, 754
    bed rest and institutional treatment, 183
    coexistence with carcinoma of the lung, 67
    drug-resistant, re-treatment of, at Battey State Hospital (Notes), 957
    relapse in treated cases (Notes), 61, 120
    resection for, end results in, 760
Tumors
  bronchiolo-alveolar, of canine lung following inhalation of plutonium particles (Notes), 963
  carcinoma of lung, coexistence with tuberculosis, 67
  granuloma, eosinophilic, of lung (case reports), 789
Tween® 80 in tests for identifying mycobacteria, 588

United States, emphysema in (Chicago), 1, 14
Urease activity of mycobacteria (Notes), 266
Urine, mycobacteria other than tubercle bacilli in, 243

Vaccination
  measles, effect on tuberculin sensitivity, 607
  against tuberculosis, 505

Vaccines, viral, 683
Viomycin
resistance of tubercle bacilli to, 640
susceptibility of tubercle bacilli in patients never treated with cycloserine, viomycin, or kanamycin (Notes), 961
Viral vaccines. *See* Vaccines
Vital capacity. *See* Pulmonary function

Wax, purified, toxic glycolipids isolated from, 779

X-ray microscope for study of lung parenchyma (Notes), 448

Index of Abstracts—Subjects

Abscess(es)
amebic, in children, pleuropulmonary complications of, 667
paravertebral, penetrating into lung, 658
Acetylsalicylate, anti-anaphylactic action of, in guinea pig lung, 162
Acid(s)
deoxyribonucleic, effect on tuberculosis in guinea pigs, 168
nicotinic, concentrations in blood of tuberculous patients under chemotherapy, 838
palmitic, effect on rabbit serum electrophoresis, 169
para-aminosalicylic. *See* Para-aminosalicylic acid
ribonucleic, ribosomal, and ribosomes, induction of cellular resistance by, in studies of tubercle bacillus-histiocyte relationships, 498
urocanic, in urine, in status asthmaticus, 497
Acidosis, respiratory, acute, 336
Actinomycetes. *See* Fungi
Adenoma. *See* Tumors
Adenosis, bronchial, pulmonary cystic emphysema caused by, 328
Aerosol(s)
automatic delivery of, for inhalation experiments, 171
of *Serratia marcescens*, exposure to and recovery from, 168
surface-active, effects on lung compliance and resistance, 842
therapy
in asthma, 826
in bronchopulmonary suppuration, with kanamycin, 334
in pulmonary tuberculosis
with thiosemicarbazone, 838
with trypsin, 822
Agar diffusion method in assaying biologically active isoniazid in body fluids, 334
Air pollution
effect on respiratory infection, 171
exposure of animals to auto exhaust, 849
exposure to sulfur dioxide in pulp mills, 850
intermittent, in New York City (1962), 850
Aleutian-mink disease in man, 678
Alkalosis, respiratory, effects on pulmonary and systemic circulation, 165
Allergic state, 485
Allergy, mechanism of anaphylaxis as possible basis for pharmacologic approach to, 334
Amines, sympathomimetic, oral, in treatment of asthma, 671
Amphotericin B
in blastomycosis, cryptococcosis, and histoplasmosis, 836
in coccidioidomycosis, 492, 670
Amyloidosis
pulmonary, diffuse, with miliary pattern, 484
tracheobronchial, diffuse, 484
Analgesics, Darvon, 671
Anaphylaxis, mechanism of, possible basis for pharmacologic approach to allergy, 334
Anastomosis(es)
aortic-pulmonary, prior to repair of Fallot's tetralogy, 664
systemic-pulmonary, precapillary, 158
Ancillin
antibacterial activity and clinical pharmacology of, 160
treatment of severe staphylococcal infections with, 669
Anesthesia
clinical, oxygen tension monitoring during, 839
and controlled respiration, hypoxemia associated with, 492
local, in thoracic surgery, 332
Angiocardiography. *See* Roentgenology
Angiography. *See* Roentgenology
Antigen(s)
of farmer's lung disease, thermophilic actinomycetes as source of, 342
PPD, dilutions of, effect of duration of storage on, 344
Antihistamine, mebrophenhydramine, in asthma, controlled trial of, 327
Antimicrobial(s). *See also* Chemotherapy, Drugs, and specific names of drugs
antistaphylococcal, comparative *in vitro* and *in vivo* activity of, 489
influence of pH and bacterial density on antibacterial activity of, in susceptibility tests, 492
in pyothorax and pyopneumothorax in children, 161
tetracyclines, 672
Aortic arch, congenital abnormalities of, 488
Arsenic, medicinal, poisoning from, relation to lung cancer, 329
Artery, coronary, left, anomalous, opacification from pulmonary artery of, 332
Arthritis with sarcoidosis, 844
Asbestosis. *See* Pneumoconioses
Ascites in Hodgkin's disease, 662
Aspergilloma. *See* Tumors
Aspergillosis. *See* Mycoses

Aspiration, transtracheal, 342
compared with other methods of determining bacterial flora of lower respiratory tract, 149
Asthma
aerosol therapy in, 826
bronchial
lupus erythematosus cells in, 497
occurrence in relation to age and sex, 659
physical therapy in, 336
regional pulmonary function studied with xenon[133] in patients with, 494
cytodiagnosis of sputum in patients with, 679
etiologic factors in, 485
intractable, anabolic steroid in, 328
mebrophenhydramine in, 327
oral sympathomimetic amines in treatment of, 671
prolonged treatment with prednisolone in, 327
status asthmaticus
death from, role of sedation, 162
identification of urocanic acid in the urine in, 497
Atelectasis
segmental, 825
surface tension reducing activity in lungs from patients with, 680
Atresia
complex (tricuspid stenosis), 486
esophageal, repair of, distal esophageal perforation as complication, 331
Atropine
effect on diffusing and mechanical properties of lung, 338
hypoxemia from, 493
Auto exhaust, effects on animals of exposure to, 849
Azygography. *See* Roentgenology

Bacillus anthracis, large-scale production of protective antigen of, in anaerobic cultures, 340
Bacterial infections, ecology of, 501
BCG
vaccination
comparison between multiple puncture and intradermal methods, 503
decline of tuberculosis in children and adolescents with, in France, 172
oral, protective effects of, in mice, 498
overdosage, treatment with isoniazid, 347
passive transfer of immunity to tuberculosis by cells from vaccinated mice, 847
skin sensitivity to BCG following, 503
tuberculosis resistance induced by, in red mice, 499
vaccine, intensity and characteristics of energy metabolism of, 340
Beryllium studies in postmortem lungs, 845
Biopsy
pericardial, 831
scalene node, 663
Blastomycosis. *See* Mycoses
Boeck's sarcoid. *See* Sarcoidosis
Bronchiectasis
with obliterative bronchitis and bronchiolitis, 484
progressive, chronic, acquired dysgammaglobulinemia in woman with, 661
Bronchiolectasis, diffuse, idiopathic, 678
Bronchiolitis
effect of breathing 40 per cent oxygen on arterial blood gas tensions in infants with, 482
mechanics of respiration in, 162
obliterative, with bronchiectasis, 484
obstructive, severe, in infancy, treated with hydrocortisone, 482
treatment of, 482
Bronchioma. *See* Tumors
Bronchitis
blood groups of miners with, 501
chronic, 659
clinic for prevention of, 660
with emphysema, bronchodilators and corticosteroids in, 326
mucus gland enlargement in, 483
pathology of thoracic anteroinferior quadrant, 153
prednisolone in, 151
in pulmonary emphysema, 152
respiratory syncytial virus in acute exacerbations of, 824
obliterative, with bronchiectasis, 484
Bronchodilator(s)
in emphysema and chronic bronchitis, 326
Thermo-Fog, physiologic benefits of, 839
Bronchography. *See* Roentgenology
Bronchopulmonary disease, diagnostic terms in, 485
Bronchoscopy, diagnostic value of, 831
Bronchostenosis, bilateral, repaired surgically, 835
Burn therapy, 496
Busulfan, diffuse interstitial pulmonary fibrosis after therapy with, 326
Byssinosis. *See* Pneumoconioses

Cancer. *See also* Tumors
of bronchus, exfoliative cytology in diagnosis of, 497
cells, circulating, index of fate of, 329
histopathologic findings in prescalene tissue from 1,000 postmortem cases of, 845
of lung, 154
in Canada, 828

Cancer, of lung (cont'd)
chemotherapy of, 154
diagnosis by examination of sputum, 679
epidemiology of, 502
methods for concentration of cells in sputum, 679
rates of growth of metastases, and host survival, 831
in rats, induction and transplantation of, 682
relation to medicinal arsenic poisoning, 329
retrograde lymphatic metastasis in, 328
in Taiwan, 662
mortality, in underground metal miners, 500
of nasopharynx, pulmonary metastases from, associated with hypertrophic osteoarthropathy, 328
survival of patients treated at Ontario Cancer Institute (1930–1957), 828
Carbon dioxide elimination in semiclosed systems, 338
Carcinoid syndrome originating in bronchial adenoma, 153
Carcinoma. *See* Tumors
Cardiac resuscitation, external, gastric rupture occurring during, 834
Cavernectomy in pulmonary tuberculosis, 156
Cephalothin (new antistaphylococcal antimicrobial), 489
Chemotherapy. *See also* Antimicrobials, Drugs, and specific names of drugs
in cancer of lung, 154
combined with radiation in treatment of malignant tumors, side-effects of, 835
congenital defects in children born to women under treatment for pulmonary tuberculosis, 837
nicotinic acid concentrations in blood of patients under, 838
in pneumoconiosis complicated by tuberculosis, 837
in tuberculosis
of bone and joint, 823
experimental, 161, 168, 169, 489
pulmonary, 488, 490
adequately treated, refractory to, 160
in Brazil, 837
in children with segmental and lobar involvement, 491
with corticotropin and prednisone, 822
in patients with tubercle bacilli resistant to streptomycin, isoniazid, and PAS, 836
Chickenpox complicated by pneumonia and pericarditis, 825
Chorio-epithelioma. *See* Tumors
Cigarette smoking. *See* Smoking
Ciliary action
effect of filtered cigarette smoke on, 671
and phagocytosis, and mucus flow, 674
Cloxacillin (new antistaphylococcal antimicrobial), 489
Coccidioidomycosis. *See* Mycoses
"Coin lesions," intrathoracic, diagnostic thoracoscopy in, 331
Collagen diseases, pulmonary changes in, 669
Compound B-663 in experimental tuberculosis, 682
Cor pulmonale
chronic, survival time of erythrocytes in patients with, 675
early recognition of, 660
prognosis of, 660
secondary to ventriculoauriculostomy, 832
Corticosteroids. *See* Hormones
Corticotropin. *See* Hormones
Cortisone. *See* Hormones
Croup syndrome, acute, influenza virus B as cause of, 480
Cryptococcosis. *See* Mycoses
Cyanosis with hypoventilation and polycythemia, 675
Cycloserine
plus ethionamide, in pulmonary tuberculosis, 334, 490
plus thiacetazone, in pulmonary tuberculosis, 490
Cysts. *See also* Tumors
bronchogenic, push-up stridor caused by, 663
lingual, congenital, respiratory distress from, 483
thymic, of the neck, 486
Cytology, exfoliative, in bronchial carcinoma, 155

Darvon® (propoxyphene hydrochloride), 671
Decortication of lung, 665
delta-Hydroxy-gamma-oxo-L-norvaline. *See* HON
Dextrocardia detected during mass roentgenography, 333
Dextro-2,2′-(ethylenediimino)-di-l-butanol. *See* Ethambutol
Diabetes
mellitus, diabetic retinopathy in, disappearance of waxy exudates during administration of PAS, 161
with tuberculosis, isoniazid metabolism in patients with, 671
Dialysis, peritoneal, in management of acute isoniazid intoxication, 491
Diffusing capacity. *See* Pulmonary function
Dihydroergotamine tartrate, effects on pulmonary and systemic circulations in man, 840
Dihydrostreptomycin, auditory ototoxicity in tuberculous patients treated with, 491
5,5-Dimethyl-2,4-oxazolidinedione distribution, calculation of total body intracellular pH from, 169
Distomiasis with pulmonary carcinoma, 154
Drug(s). *See also* Antimicrobials, Chemotherapy, and specific names of drugs

Drug(s) (cont'd)
antitumor, induction of resistance of Yoshida sarcoma to, 847
bacterial susceptibility to, 489
in chronic tuberculosis with resistant tubercle bacilli, 839
industry, effect of new FDA regulations on, 493
lupus-like syndrome induced by, 489
new, aids to choice of, 671
reactions
amphotericin B, 492
antituberculosis, 489
arsenic, 329
atropine, 493
busulfan, 326
dihydrostreptomycin, 491
ethionamide, 333
isoniazid, 491
phenylbutazone, 679
resistance
of pneumococci, to tetracycline, 838
of tubercle bacilli, 159, 162, 168, 174, 491, 676, 839
isoniazid, 159, 162, 168, 836
PAS, 836
streptomycin, 836
of Yoshida sarcoma, induced *in vitro*, 847
susceptibility determinations of *M. tuberculosis* to, 338
Dysgammaglobulinemia in chronic progressive bronchiectasis, 661

Eaton PPLO pneumonia, 658
Edema in Hodgkin's disease, 662
Effusions
pericardial
in Hodgkin's disease, 662
probable histoplasma endocarditis with, 677
pleural
chronic, in Besnier-Boeck-Schaumann sarcoidosis, 326
eosinophilic, 151
in Hodgkin's disease, 662
Electron microscopic study of cellular aspects of pulmonary fibroadenomatosis with impairment of diffusion, 341
Electrophoresis of rabbit serum, effect of isoniazid and palmitic acid on, 169
Embolism, pulmonary, 150
surgical treatment of, 833
and thrombophlebitis, 150
"vascular gap" sign in, 836
Emphysema
bronchiolar, 678
centrilobular
with hemosiderosis, 341
upright theory of apical localization in, 148
changes in pulmonary hemodynamics produced by isoproterenol infusion in patients with, 335
with chronic bronchitis, bronchodilators and corticosteroids in, 326
with hypoxia, polycythemic response in, 152
pulmonary, 326
capillary network of lungs in patients with, 342
chronic, tracheotomy in, 665
chronic bronchitis in, 152
classification and distribution of, in Canada, 500
cystic, due to bronchial adenosis, 328
intercostal lung bulging as roentgen sign of, 835
responses to exercise training in patients with, 841
severe irreversible airways obstruction without, 658
Endometritis, tuberculous, bacteriologic diagnosis of, 657
Enterotoxin, production of, and staphylococcal growth, in meat, 675
Enzymes
proteolytic, effect on absorbable suture material, 486
respiratory, changes in activities of, in lungs of guinea pigs exposed to silica dust, 169, 681
trypsin, aerosol therapy with, in severe pulmonary tuberculosis, 822
Eosinophilia, tropical, 657, 825
Epicardectomy, effect on ventricular fibrillation threshold, 666
Erythema nodosum with sarcoidosis and gout, 485
Ethambutol
activity against atypical mycobacteria, 339
therapeutic effect in experimental tuberculosis, 847
Ethionamide
with cycloserine, 490
with cycloserine or PAS, 334
by intravenous injection, 159
jaundice due to, 333
Exocrine gland dysfunction (mucoviscidosis) in adults, 661

Fallot's tetralogy
congenital pericardial defect associated with, 678
with previous aortic-pulmonary anastomosis, repair of, 663
Farmer's lung. *See* Pneumoconioses
Fibroadenomatosis, pulmonary, diffusion impairment in, electron microscopic study of cellular aspects of, 341
Fibrosis
cystic
respiratory tract bacteriology in, 152
roentgen diagnosis of, 157

Fibrosis (cont'd)
endomyopericardial, 678
pulmonary
interstitial, diffuse,
after busulfan therapy, 326
in patients with positive sheep cell agglutination test, 846
massive, progressive, dust and collagen content of lungs in coal workers with, 342
Finger clubbing and systemic arterial patterns in lung, 159
Fish, tropical, tuberculosis in, 170
5-Fluorouracil and radiation in treatment of multiple metastatic tumors, 835
Food and Drug Administration, new regulations of, effect on drug industry, 493
Fungi, actinomycetes, thermophilic, as source of farmer's lung hay antigen, 342

Gastric rupture occurring during external cardiac resuscitation, 834
Glomerulonephritis with pulmonary hemorrhage (Goodpasture's syndrome), 325
Gnotobiotic technology, symposium on, 344
Goodpasture's syndrome, 325
roentgenographic appearance of, 669
survival after, 679
Gout with sarcoidosis and erythema nodosum, 485

Hamartochondroma. *See* Tumors, bronchioma
Hamartoma. *See* Tumors
Hay fever, pollen absorbate in treatment of, 335
Hearing loss in tuberculous patients treated with dihydrostreptomycin, 491
Hemodilution, intentional, 330
Hemopneumothorax, spontaneous, 486
Hemoptysis, nontuberculous, 661
Hemosiderosis with centrilobular emphysema, 341
Hepatitis, inclusion body, in marmosets, 497
Hernia, hiatal, and hemorrhage, 330
Histamine responses during exposure to isocyanate in polyurethane foam manufacture, 163
Histiocytes, relationships to tubercle bacillus, induction of cellular resistance by ribosomes and ribosomal RNA, 498
Histiocytosis X, recurrent spontaneous pneumothorax as clue in diagnosis of, 828
Histoplasma capsulatum, pericarditis caused by, 677
Histoplasmosis. *See* Mycoses
Hodgkin's disease, pleural effusions, ascites, pericardial effusions, and edema in, 662
HON (delta-hydroxy-gamma-oxo-L-norvaline), in experimental tuberculosis, therapeutic effect of, 847
Hormones
corticosteroids
in Boeck's sarcoid, 485
in emphysema and chronic bronchitis, 326
in pulmonary tuberculosis, 324, 478, 656
corticotropin, with chemotherapy, in pulmonary tuberculosis, 822
cortisone, local effect on tuberculin reaction, 848
hydrocortisone in severe obstructive bronchiolitis in infants, 482
parathyroid in venous drainage of functioning intrathoracic parathyroid adenoma, 330
prednisolone
in chronic bronchitis, 151
in asthma, prolonged treatment with, 327
prednisone
with chemotherapy, in pulmonary tuberculosis, 822
in experimental tuberculosis, 169
steroid, anabolic, preliminary observations on use in intractable asthma, 328
Hydatidosis, pulmonary, 484
Hydrocortisone. *See* Hormones
Hypernephroma. *See* Tumors
Hyperplasia, lymph-node, angiofollicular, of mediastinum, 664
Hypersensitivity, delayed, passively transferred, specificity of, 343
Hypertension, pulmonary, familial, 326
Hypertrophy of terminal valve, subclavian vein obstruction secondary to, 666
Hypnosis, inhibition of Mantoux reaction by, 169
Hyponatremia
and bronchial carcinoma, 829
and bronchogenic carcinoma, 486
Hypothermia, effects on myocardial contractile force, 170
Hypovascularity of left lung in congenital left-to-right shunts, 488
Hypoventilation, with cyanosis and polycythemia, 675
Hypoxemia
associated with anesthesia and controlled respiration, 492
from atropine, 493
in the burned patient, 845
after crush injury of chest, 843
experimental, treated with intraperitoneal oxygen, 343
Hypoxia, polycythemia secondary to, continuous oxygen administration in, 495

Ileus, "high output" respiratory failure in, 150
Infarction, experimental, after pulmonary resection, 332
Infectious agents, pulmonary response to, 498
Influenza. *See* Viruses

Isocyanate, exposure to, in polyurethane foam manufacture, ventilatory capacity and histamine responses, 163
Isoniazid
biologically active, in body fluids, assayed by agar diffusion method, 334
effect on rabbit serum electrophoresis, 169
importance of pyridoxine for tolerance of, 335
intoxication, acute, management by peritoneal dialysis, 491
metabolism in tuberculous diabetics, 671
mode of action on tubercle bacilli and mechanism of isoniazid resistance, 162
outpatient treatment with, 492
resistance, 162, 836
developing during desensitization, 159

peritoneal, in asbestosis, 830
pseudotumor, inflammatory, of lung, 662
pulmonary, metastatic from chorio-epithelioma, resection of, 663
sarcoma, Yoshida, *in vitro* induction of resistance to antitumor agents in, 847
thymoma
leukemogenic, 830
malignant, 663
and systemic lupus erythematosus in same patient, 329

Ulcer, peptic, and pulmonary disease, in coal miners, 850

Vaccination, BCG. *See* BCG vaccination
Vaccine
influenza, polyvalent, in the aged, reactions to, 500
measles virus, attenuated, depression of tuberculin reaction by, 502
Ventilation. *See* Pulmonary function
Ventriculoauriculostomy, cor pulmonale secondary to, 832
Ventriculovascular shunt, pulmonary complications of, 487
Viomycin, intravenous, in tuberculosis, 160
Virus(es)
adenovirus, type 7, in fatal case of pneumonia and disseminated disease, 825
from common cold, 657
Coxsackie, group B, type 2, epidemic due to, 824
influenza
in aerosols, infectivity of, 481
etiology and seasonal incidence of, in adults, 480
experimental transmission of, in mice, 170
-pneumonia, deaths from, methods for current statistical analysis of, 173
PR8, and *Staphylococcus aureus*, synergistic activity between, in guinea pig, 171
type B, as cause of croup syndrome, 480
myxoviruses associated with acute laryngotracheobronchitis, in Toronto, 657
parainfluenza
in nonbacterial respiratory infections of adult, 481
type 2, infections in adult volunteers, 481
respiratory syncytial
in acute exacerbations of chronic bronchitis, 824
in acute respiratory diseases in infancy, 481
assay method for, 149
in respiratory tract infections, 481

Woolsorter's disease in monkeys, 343

Xenon[133]
distribution of blood and gas within lungs measured by scanning after administration of, 494
regional pulmonary function studied with, in patients with bronchial asthma, 494
